Dear Peter:

We at Quebecor Printing Eusey Press would like the opportunity to thank you for all the work you've done for us over the past two years. Not too long ago our facility was in dire need of a "facelift." However, due to your expertise and workmanship, Eusey Press has been turned into a more vibrant workplace for our employees as well as a showpiece to our customers.

We are very pleased with your recommendation of incorporating the Versalock wall into our renovations. This wall has added an entire new dimension to our property grounds. It blends beautifully with the slope of the land and compliments the surrounding landscape. Located at the entrance to our facility, it serves as an engaging welcome to visitors to Eusey Press. The result has generated numerous compliments which we owe to you and your crew.

We appreciate your professionalism, timeliness and attention to all of our landscape needs. Thank you for a great job and we look forward to a continued relationship and working with you in the future.

Sincerely,

Richard J. Couture
