Leominster, MA 01453

Dear Peter,

I just wanted to let you know that I think the retaining wall that you built for the building at *Apple Brook Crossing* came out great. A lot of good comments have been received on how nice it looks - too bad it's in the back of the building!

This wall was a cost-saving wall, compared to a poured concrete wall, and looks a lot better. It's great when you can achieve cost effectiveness and good looks at the same time.

Thank you again for the great job!

Sincerely,

Wayne E. Farrow
